

CHEMISTRY SAT SUBJECT TEST COURSE

For June 6th SATs

Tuesday evenings, 7:15 to 9:15 p.m.
@ UVEC

Classes Start on April 28th

Topics will include:

- * Atomic Theory
 - * Na_2SO_4 = Sodium Sulfate, etc.
 - * The (7) Types of Reactions
 - * Balancing Chemical Equations
 - * Stoichiometry
 - * Orbitals ($1s^2 2s^2 2p^6$, etc.)
 - * Chemical Bonding
 - * Gas Laws ($PV = nRT$ and more)
 - * Equilibrium and Reaction Rates
 - * Thermodynamics
 - * Acids and Bases
 - * Organic Chemistry
 - * Laboratory Techniques
- * (2) Full- length Practice Tests
 - * Strategies for optimal test performance
 - * Chemistry “Demos” illustrating reactions
 - * 28th- year Teacher
