

# Spanish Immersion workshops

The workshops are built around daily routines and activities to boost your child's language skills. I encourage children to explore and exercise all of their natural intelligences (Linguistic, Kinesthetic, Logical/mathematical, Visual, Spatial, Musical, Intrapersonal, Interpersonal and Natural)

- Learn by "doing".
- Learn by having fun. The more fun it is to learn a language, the more a child will want to stay with it.
- Learn with music and rhythms. Music is one way to use the whole brain. Do you remember the songs that you learned when you were a child? Most people do! Words combined with music are easier to learn.
- Learn with movement. Children are kinesthetic learners. They like to imitate and act out.
- Learn by reflecting. First children absorb the language. Later they begin to speak.

## ***At Spanish Workshop for kids Parents benefit, TOO!***

By attending to the program, parents can hear what the children are learning; you will find yourself picking up phrases and rhythm of the language. This could be a wonderful benefit for your child too! You and your child can "talk" in Spanish at home to reinforce the lesson! Remember!! Children are observers and Parents are their language models. Children watch what you do, they listen to what you say and then they try it out!

The Spanish workshops consist in 5 sessions full of fun activities for the kids to reinforce their vocabulary and learning new one. Schedule of activities below:

- Tuesday, February 23th 3:30-4:30pm **Story time and games**
- Tuesday, March 2nd 3:30-4:30pm **Story time and puppets**
- Tuesday, March 9th 3:30-4:30pm **Story time and cooking**
- Tuesday, March 16th 3:30-4:30pm **Story time and dressing up**
- Tuesday, March 23rd 3:30-4:30pm **Story time and cooking**
